LED Sign for Custom Professional Kiosk

Our LED signs are comprised of clear acrylic with three types of design application: Laser-cut laminate, Etched acrylic, and Printed acrylic. The design application will ultimately be determined by the complexity of the logo provided.

Choose from Black, White, or Milwaukee JCT Oxide for the sign laminate.

Laser-cut laminate

Best for simple designs with thicker linework in one or two colors.

Etched acrylic

Best for more complex logos with fine linework – can be mixed with laser-cut portions to increase visibility and add visual interest.

Printed acrylic

Best for multicolored logos and use with or without LEDs.

The strong, professional look of the custom LED backlit sign is enhanced when the sign is mounted to your Custom Professional Kiosk with 1.5" silver stand-offs. The look is completed with remote-controlled, color-changing LED lighting that creates a "halo" effect on your sign.

The LED kit is powered by a rechargeable cordless battery system with an 8-hour charge cycle. If you need to light up the station for longer than 8 hours, it can be plugged directly into an electrical outlet. The LED kit also comes with a remote operated controller which has multiple speed, brightness, and color settings.

LED Kit includes

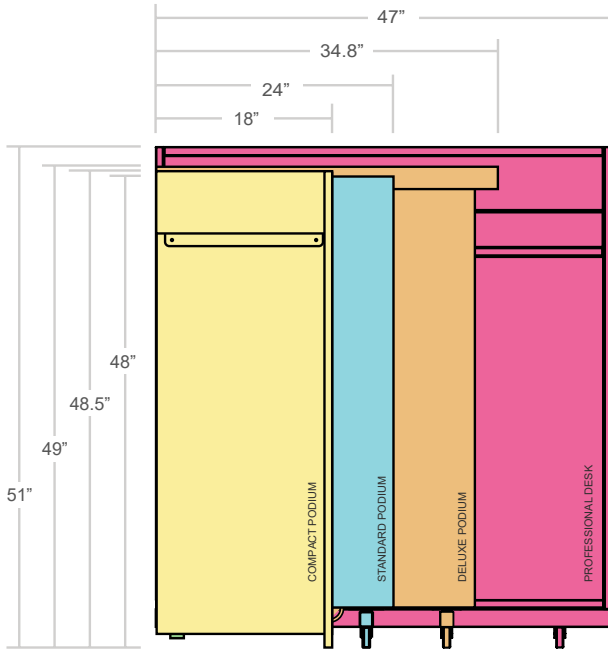

- 8 Color options: Red, Orange, Yellow, Blue, Cyan, Purple, White Green
- Waterproof LED strips with multiple color options
- Sealed, 8 hour rechargeable battery w/ power supply
- Easy-to-use controller and remote

Available only on Custom Professional Kiosk
Sign sizing: 16"x24"

Don't want it backlit? Ask us for pricing on a sign without LEDs.

Slam Lock

Standard lock with key. Locks automatically when door is closed. Reliable, fast and secure.

Simplex Pushbutton Combination Lock

Keyless entry. Push in the combination to access. Locks automatically when door is closed. Fast keyless entry, resettable combination, no keys to manage.

Combination Cam Lock

Access with the master key or dial in the 4 digit combination. Must be manually locked and does not have the ability to be "slam locked". Resettable combination w/ master key helps with keeping track of multiple keys.

SCHLAGE FE595 Keypad Entry

Convenient and secure keyless access which locks automatically when door is shut. Program up to 19 user codes to fit your security needs. Battery operated key pad lights up for visibility at night. 3 year battery life.

Key Cam Lock

Cam lock needs to be manually locked. Option for keyed alike and keyed different.

SNEEZE GUARDS

Add a sneeze guard to your purchase of the podiums listed below. Or buy a countertop shield and retrofit it to a podium you already have.

Protect employees and customers with acrylic countertop shields from The Valet Spot. These social distancing barriers – also called sneeze guards – add .22" of protection from harmful airborne particles. Countertop shields are especially important as businesses begin to reopen after Covid-19 closures. Our new sneeze guards extend each podium to a total height of 6' and are up to 28" wide depending on the model.

The Valet Spot sneeze guards come ready to use with pre-installed magnets

PODIUM SIGNAGE

Vinyl Decal

This is a great option for simple logo decals or text without extensive details or backgrounds. The background color will be the color of the podium panel.

*Can be done on all podiums.

Vinyl Wrap

This is a great option for larger, more complex designs or designs that require a specific background color other than the color of the podium panel.

*For our Custom Deluxe and Custom Professional, wrapping will only be done on the panel inserts. Framing will remain original color.

Large Magnet

This is a great option for those who want a specific background color but don't want to permanently affect the podium itself. Our magnets cover the full face of whatever side they are applied to and are fully removeable if you decide to use the podium for other uses or companies.

*Not recommended for Custom Deluxe or Custom Professional podiums

VALET UMBRELLAS

Valet Umbrella

- 7.5' umbrella
- Aluminum pole and fiberglass ribs for maximum durability
- Manual pulley system for easy opening
- Vibrant polyester canvas
- 1.5" Pole diameter
- 2-year fade protection on the canvas

Our valet umbrellas are a great way to add a little class to your valet operation and help draw the attention of your customers. Each umbrella features an aluminum pole and fiberglass ribs which are more durable than traditional wood valet umbrellas.

Although durable, our umbrellas are not designed to withstand strong winds. To prevent damage to the umbrella and to the podium, umbrellas should always be taken down when the wind picks up.
