Sneeze Guard
QTY: 1

Magnet
QTY: 4

Note: Magnets come attached to Sneeze Guard

Aluminum Channel
QTY: 2

Aluminum Channel
QTY: 2

Note: Parts are not to scale.

STEP 1: Place sneeze guard in a upright position. Hold spacer as shown below while installing its screw. Remember to install provided washer as well. Repeat process for both spacers.
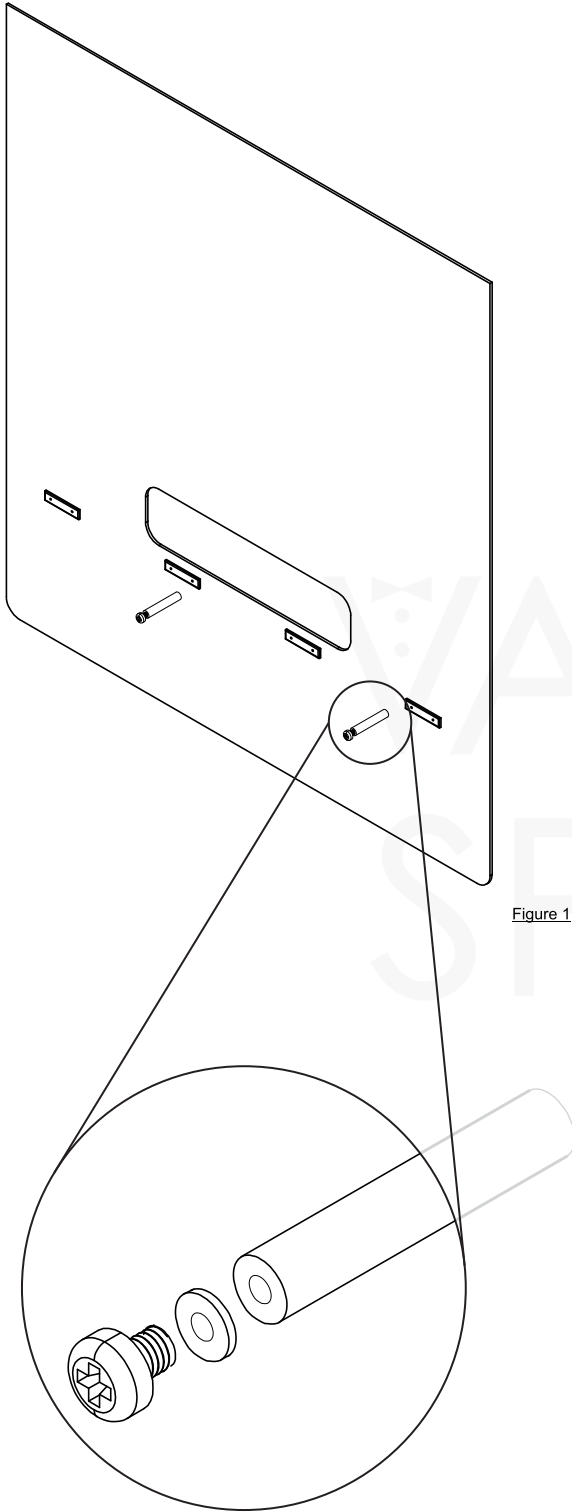

STEP 2: Install sneeze guard by sliding in from above with magnets and spacers forward. Attach magnets to the lip of the top counter (highlighted in red)
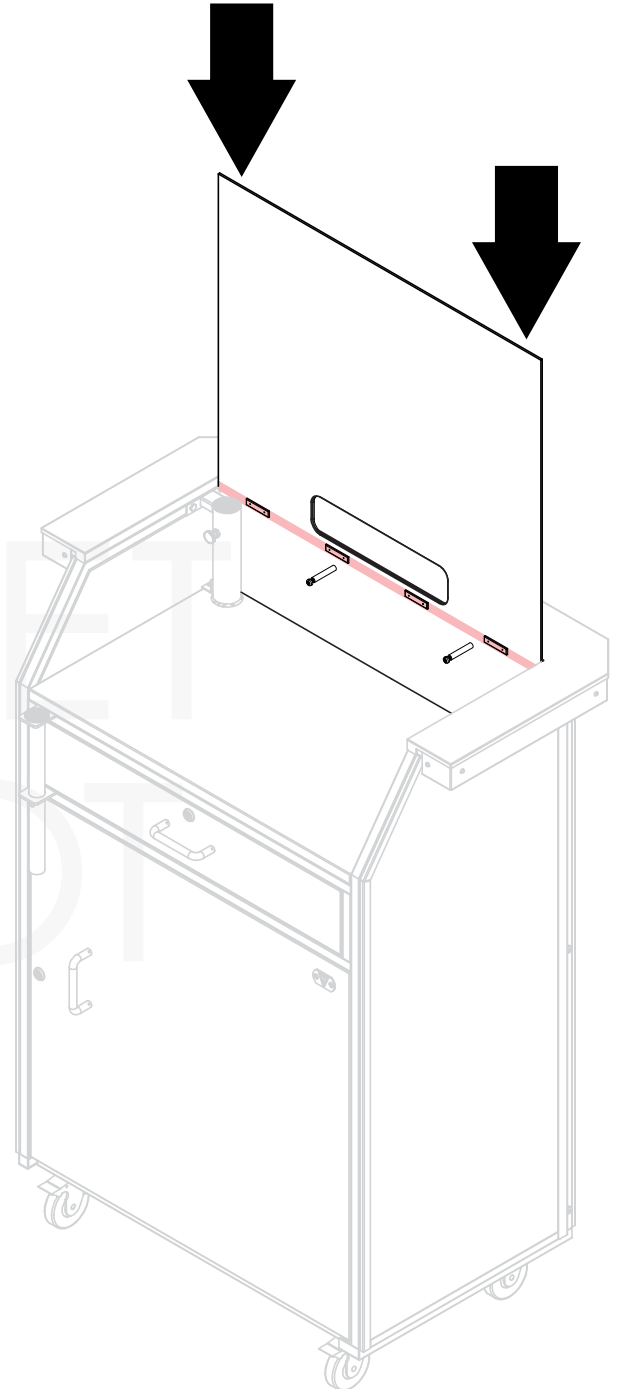

Figure 1

Figure 2

Figure 3

Follow next page steps if additional stability is needed

These steps will increase stability but the Aluminum Channel will strongly adhere to the work surface

STEP 1: Use two pieces of masking tape to mark where the sneeze guard touches the working surface.

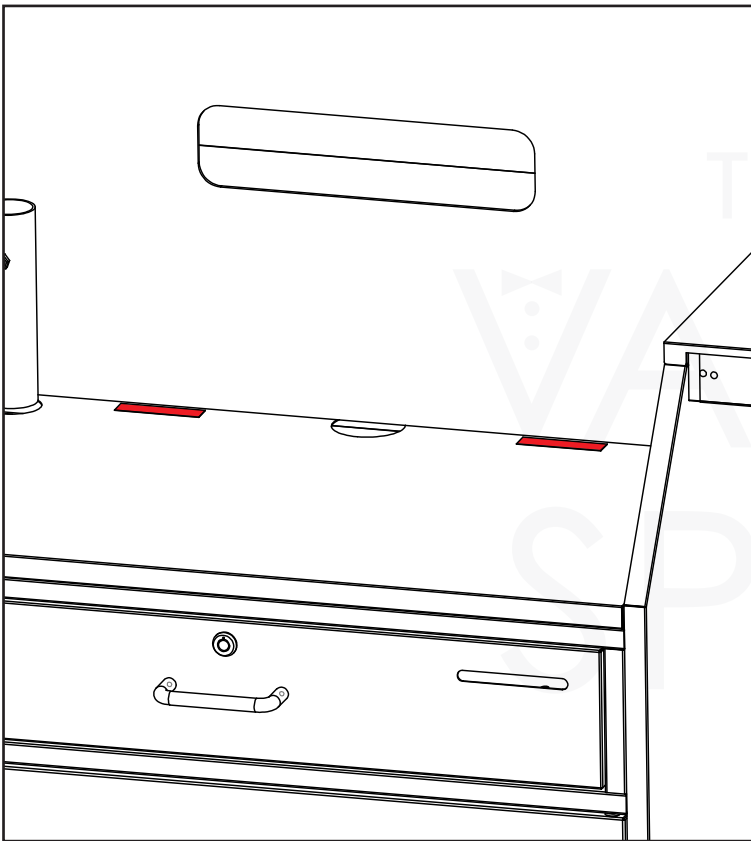

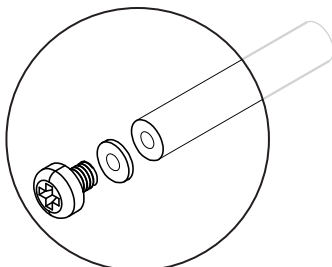

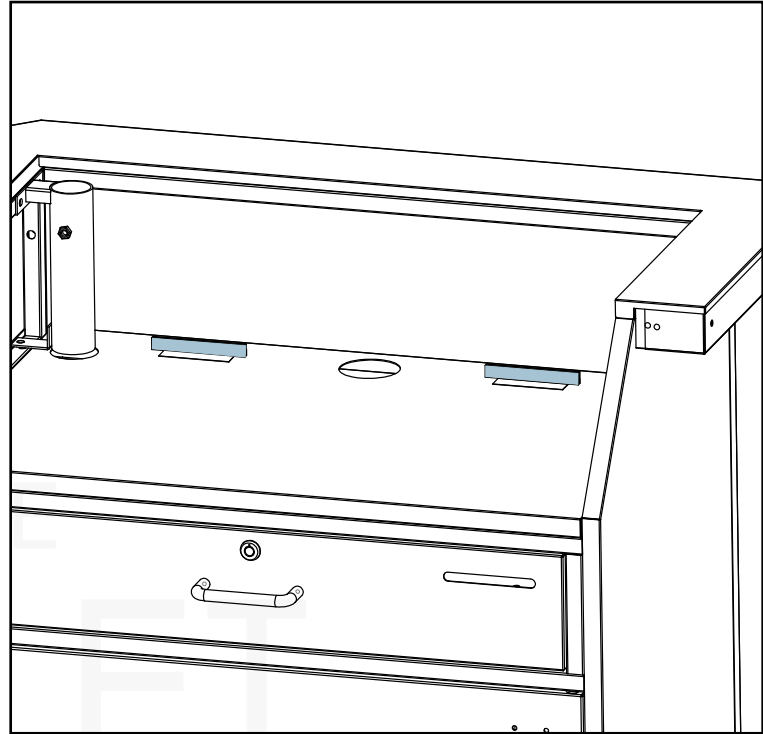

Figure 2

STEP 2: Remove sneeze guard completly.

STEP 3: Remove previously installed spacers.

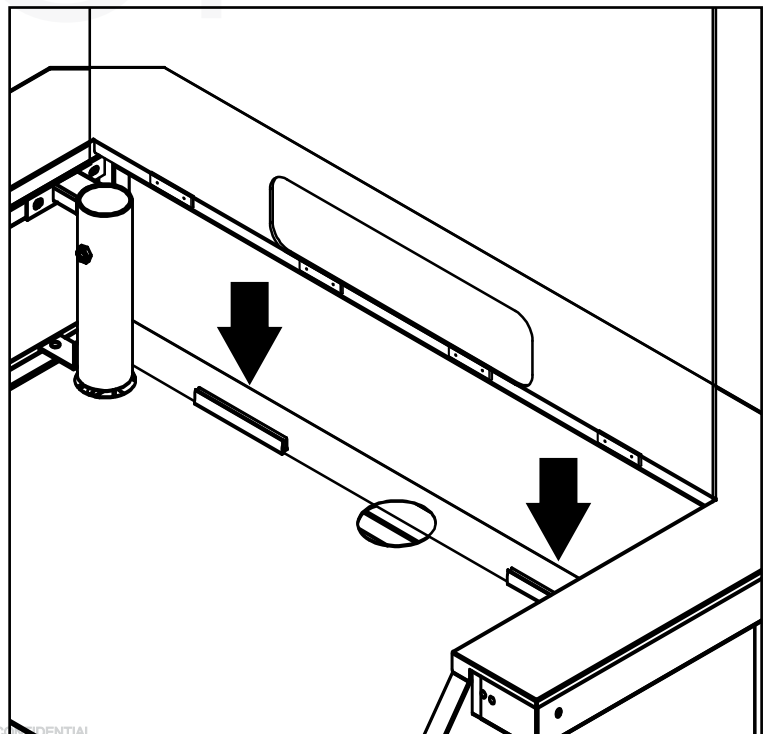

STEP 4: Peel double sided tape on the bottom of the Aluminum Channels and adhere them to working surface. Follow the tape markings as shown bellow:

STEP 5: Remove tape markings.

STEP 6: Re-install sneeze guard following Steps 1 and 2. Make sure to align sneeze guard with both Aluminum Channels.
